

**Sale Name:** Grainger Industrial

**LOT 233 - 14lbs 3M Activated Carbon Media**

**Lot Location** Morrison

**Description**

14lbs 3M Activated Carbon Media 3M™ Whole House Water Treatment Media A-050P is an activated carbon filter media base used in Residential and Commercial applications to reduce chlorine taste and odor. Each particle of activated carbon

provides a large surface area, allowing maximum exposure to the active sites within the filter media. One pound of activated carbon has an approximate surface area to 100 acres.

**Quantity: 1**
