

**Sale Name:** Grainger Industrial

**LOT 170 - 14lbs 3M PF-5060 Performance Fluid \*No Shipping**

**Lot Location** Morrison

**Description**

3M™ Performance Fluid PF-5060 is a fully-fluorinated liquid useful as a replacement for ozone depleting substances. Applications include: foam blowing insulation additive, dielectric medium for linemen sleeve testing, and particulate removal

solvent. Additional Information 3M™ Performance Fluid PF-5060 is a clear, colorless, fully-fluorinated liquid. Like other 3M™ Performance Fluids, 3M™ Performance Fluid PF-5060 fluid is chemically and thermally stable, practically non-toxic, and nonflammable. The high dielectric strength, excellent materials compatibility, and chemical and thermal stability make 3M™ Performance Fluid PF-5060 fluid useful in a wide range of applications, such as lubricant deposition, reaction media and heat transfer. Useful CFC-113 replacement.

**Quantity: 1**
